

THE GIRLS FOUNDATION OF TANZANIA

"WHEN WE INVEST
IN WOMEN AND
GIRLS, WE ARE
INVESTING IN THE
PEOPLE WHO INVEST
IN EVERYONE ELSE."

-Graça Machel
Former First Lady of South
Africa and Mozambique

"When a leadership
opportunity comes, I
always take action
and go for it.
I feel like I have
more to give
because of the
skills I've learned at
TGFT Girls
Center."

-Happiness,
TGFT Student

We invest in girls' potential and education

TGFT provides merit-based sponsorships to 86 adolescent girls living in extreme poverty. For more than a decade, our work has empowered these girls to excel in school and in their communities.

- 98% of TGFT girls are the first in their families to graduate from secondary school and university.
- TGFT girls and staff have trained over 40,000 Tanzanian youth in sexual and reproductive health.

Our model goes beyond providing scholarships

TGFT's Sponsorship Program spans from 8th grade through university. TGFT also coordinates and offers:

- Weekly health, environmental, and mentorship clubs for girls and boys at three primary and secondary schools;
- Leadership workshops during school holidays, designed and conducted by local community members;
- After School Programs for primary school children.

We provide a holistic approach to learning at the Girls Center

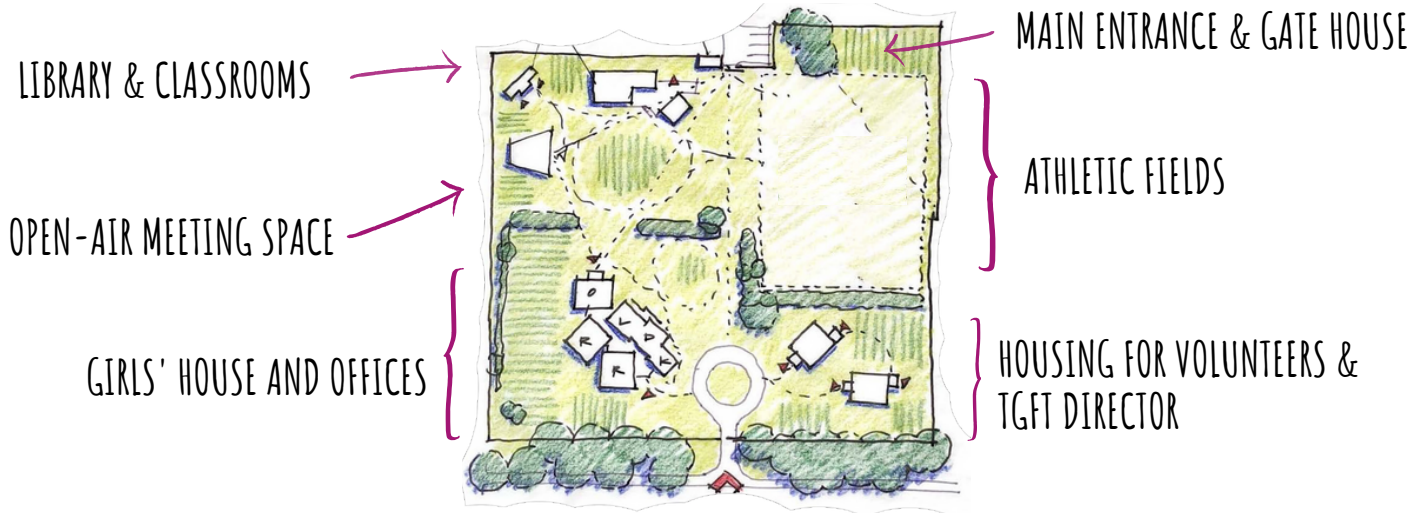

TGFT students reside at The Girls Center during long school holidays. In contrast to their home situations, The Center is a safe and nurturing environment where they have access to much-needed study time, as well as computers and internet. Their time together allows for mentorship, psychological support, and thought-provoking workshops that are not part of their schools' curriculum.

TGFT LEADERSHIP CENTER CAPITAL CAMPAIGN

HELP US BROADEN
OUR WORK AND
DEEPEN OUR IMPACT
BY BUILDING A NEW
CAMPUS IN THE HEART
OF THE COMMUNITY.

A Vision for the Future

In late 2022, TGFT purchased 4 acres of land and launched a campaign to build a permanent Girls Center. We commenced work on a security wall in July 2023.

Our goal is to raise \$800,000 to construct the new Girls Foundation of Tanzania campus.

Architects: Scattergood Design

Construction Partners: Africa Schoolhouse

Scattergood Design has designed primary and secondary schools in rural villages of Tanzania since 2008. They work with the construction crew from Africa Schoolhouse, which is a local organization dedicated to building quality schools and providing job training.

Your gift will change the lives of girls and young women in Tanzania.
